Experience

Full-Stack Developer | Secure Ideas

May 2022 - March 2026 | Rock Hill, SC

- Responsible for designing, developing & maintaining secure internal applications
- Created UX standards for framework-agnostic AI-assisted development
- Managed branding, positioning & strategy, and web development for multiple brands
- Expanded development capabilities to include multiple JS frameworks and CMS platforms
- Deployed cloud hosting solutions to major providers including AWS, Cloudflare, and Netlify

Designer | Peaktwo

Jan 2020 - April 2022 | Fort Mill, SC

- Sole designer at a creative agency focused on UI/UX for b2b organizations
- Thrived in fast-paced environment requiring creative problem-solving and flexibility
- Intimately involved in all client deliverables for 15+ clients at a time
- Designed and launched 20+ story-driven web experiences
- Created sketches, wireframing, prototyping, and high-fidelity mockups

Freelance Graphic Designer

Oct 2018 - Jan 2020 | Fort Mill, SC

- Full design service for new and established brands in North America and globally
- Created branding, packaging, and digital from the ground up for b2c brands like Bearded Crew
- Crafted strategy, branding, and web experiences for organizations like Secure Ideas
- Print design including best-selling book layout design for global brands like SIM
